

# Scholarships to study in Oxford

## Berrow Foundation Scholarships for postgraduate studies

Four or more fully-funded scholarships are awarded each year to enable graduates of selected Swiss universities to study for Master or Doctoral degrees at the University of Oxford as members of Lincoln College. The Berrow Foundation Scholarships provide all College and University fees, College accommodation costs and a generous living allowance. These awards may be held for up to three years and are open to students in any subject discipline.

Candidates must be nationals of and domiciled in either Switzerland or Liechtenstein. They should *either* be currently members of one of the following universities: Berne, Fribourg, Geneva, Lausanne, Neuchâtel or the Ecole Polytechnique Fédérale of Lausanne, *or* not be more than five years beyond graduation from a first degree at one of these institutions.
